Telecom Italia issued a 9-year bond for 1 billion euro The company funds at its lowest coupon ever for a Euro bond and significantly below its average cost of debt

The amount and quality of the orders received allowed Telecom Italia to raise funds at a yield lower than the initial guidance

Milan, 23 September 2016

Telecom Italia successfully issued a Euro 1 billion fixed rate bond offered to institutional investors.

The great quality and amount of the orders received once again confirms the market's positive attitude towards Telecom Italia's credit, allowing the company to price the issue with a yield lower than initial guidance, for a 3% coupon being the lowest ever amongst the non-convertible Euro bonds issued by the Group.

The yield of the bond, equal to 3.025%, is largely below the Group's average cost of debt (5.1% at the end of June, 2016).

The proceeds of the new issue will be used to optimize and refinance forthcoming debt maturities.
