TIM: leader in sustainability is confirmed in the Euronext Vigeo Eiris World 120, in the Eurozone 120 and Europe 120 indexes, as in the last years

Rome, 23rd November 2018

Confirmed the international recognition for TIM's commitment to green issues: even in 2018 the Group has been in the “Euronext Vigeo World 120” index, which considers the first 120 companies out of the 1,500 listed with the highest level of floating capital in Europe, North America and the Asia Pacific region.

TIM's position has also been confirmed in the “Euronext Vigeo, Eurozone 120” and “Euronext Vigeo Europe 120” indexes, which rank the 120 listed companies with the highest level of corporate social responsibility in the Eurozone and Europe. These indexes recognise companies with the best environmental, social and governance performances.

The Euronext Vigeo Eiris indexes include companies that have achieved the highest scores in the six-month assessment, basing the evaluation on more than 300 indicators in 6 thematic areas: environment, corporate governance, human rights, human resources, business conduct, and community involvement.

Inclusion in the three Euronext Vigeo Eiris indexes comes in addition to the leading global sustainability indexes in which TIM is already present, among others: Dow Jones Sustainability Indexes World and Europe, FTSE4Good, Diversity & Inclusion, Ethibel Sustainability, ECPI and CDP assessment.
